

The image features a dark navy blue background. On the left side, there are two overlapping parallelogram shapes. The front one is a light purple color, and the one behind it is a light green color. Both shapes are oriented diagonally, with their longer sides running from the top-left towards the bottom-right. The text 'Admin Portal' is positioned to the right of these shapes.

Admin Portal

Team members

- William English
- Daniel Litt
- Cody Miner
- Brian Ringer

Client Information

- Kyle Armstrong (kyle@thetyros.com)
- Owner of Zoom App - an app that helps referees get game footage so they can practice calls
- Owner of RefReps - this is the company we are working with. Tasked with creating a game that will train referees to make calls

What we changed because of our mentor

- Publishing brings the admin back to the packs page
- Handle special characters

What we changed because of our client

- We changed the UI, he wasn't the biggest fan of the amount of emptiness in our layout

Mentor's use of our software

- Autoselect just-opened text boxes
- Restrict uploaded file type (video, image)
- Remove white borders around clicked UI elements
- Create Lesson Pack -> lesson pack's editor screen
- Change delete confirmations for pairs/Add batch delete

Client's use of our software

- Kyle was very happy with the process as a whole
- In React, he did the same as before of making a lesson from scratch. Said he loved UI improvements. It could not be simpler to use and he really likes that about it.
- In Unity, he did the same as before of viewing his lesson. He liked seeing the process and being able to view his own lesson.
- “We did what he wanted to a tee” in terms of what he asked at the beginning of the year and he would “give us a big ole A on the project”
- Only criticism is having to get used to the unity analytics dashboard

Team Work

- Cody Miner
 - Design new lesson editor layout for react
 - User documentation
- Daniel Litt
 - Added custom events for unity analytics
 - Set up backend for achievements
- Brian Ringer
 - Kinect button bug fixes
 - Worked on achievements local view (unity)
- Will English
 - React improvements such as video previews and bugs
 - Getting Unity Analytics up and working

Random

The Guugu Yimithirr language -- the Australian Aboriginal language that the word “kangaroo” comes from -- doesn’t have words for left or right as directions. Instead, they only use cardinal directions.
